IN MEMORIAM HARLEY BETHEL - 1922 - 1984

Harley Bethel, our printer since 1980, and a long time friend, died on February 19th after a prolonged illness. HCA members who have attended conventions will remember him as the Chairman of the Convention Display for two years and Co-Chairman with Mary McWilliams after that. He was a voting member, dedicated to the club and always most generous with both time and money. He also was a member and former president of the Reynoldsburg HCC.

His wife, Marcella, who died in March, 1980, * was our very first printer. Assisted by Harley, she continued to print the Heisey News until just prior to her death after open heart surgery. Harley printed it until sometime last year when his health was deteriorating. At that time, his son, Gary, took over the business and

continues to be our printer.

Harley is survived by his daughter, Shirley Bagford, also a dedicated voting member of HCA, his son Gary, and three grandchildren, Mary Jo Bagford and Trent and Trevor Bethel. Aside from an association with Harley in HCA, Russ and I were close friends of the Bethels for twentyfive years. Along with other members of HCA, we'll miss him very much.

MEMBER SPEAKS AT SANDWICH MUSEUM

On February 13, 1984, The Sandwich Glass Museum was fortunate enough to have Mr. Frank Maloney, your New England Authentication Representative, lecture on Heisey Glass at our Winter Lecture Series.

His informative lecture on one of the nation's fastest growing collectibles attracted a considerable audience and elicited a most favorable response from them. Mr. Maloney brought * with him a great many pieces of Heisey glass from * his own collection. His ability to illustrate * patterns and particularly the range of kaleidoscopic colors in which the glass was made with the actual pieces of glass contributed greatly to * the education (and pleasure) of the audience.

We appreciated the excellence of his presen-* tation and thought you might like to know of Mr. Maloney's contribution to your goal of educating the American public about Heisey glass.

Barbara J. Bishop, Director Sandwich Glass Museum

NOTES FROM YOUR PRESIDENT.....

Several months ago, I was thrilled to be able to report that the HCA had been instrumental in having a confusing mark removed from glassware. This month, I am proud to report that the HCA now owns the registration of the DIAMOND H on GLASS. Not just as a collectible mark, but a real trademark on the item and on shipping labels and invoices. We received notification that as of January 31, 1984, the "Diamond H" figure was duly registered in the United States Patent and Trademark Office. A lot of us have been waiting a long time for this.

ENDOWMENT FUND

With a donation from the Bay State Heisey Collectors, our Endoment Fund passed the \$10,000 mark last month. This Fund, or rather the income from this fund, will be used solely for the preservation and maintenance of the Museum. Not that we need it now, but we're trying to protect the future.

AUCTION

This is being written before the auction (lead time being what it is), but there are some unsung heroes we have to honor. Norman and Janice Thran and Dick and Marilyn Smith almost singlehandedly (eight-handedly) catalogued the glass for the auction. I daresay they learned something about the glass, too. Liz Stickle has done all of the typing that goes with the job, the lists of glass, the lot slips, the donation forms, and all that.

HOSPITALITY

Don't forget, while in Newark for the convention, stop by the Hospitality Room in the lower level of the Museum. There will always be someone there to talk Heisey with, and also some goodies to munch on.

REGISTRATION

This year, in order to preserve peace between us and Phyllis McClain, the registration for the convention will be held in the Docent's lounge of the Museum. No matter when you arrive in Newark, (business hours) you will be able to register at the Museum. But you thought you had done that through the mail...N0000...that was pre-registration. You are not registered until you pick up your packet from the Docent's lounge. And if you are coming only for the Banquet on Firday night, you will have to have your banquet tickets. They will not be available at the door.

FORMER EMPLOYEE RECEPTION

Let me recommend to you the Former Employees reception. The speaker will be W. E. Porter, a former Heisey Employee (glass blower), who is currently making art glass, supplying the Museum with paper weights and vases which we have for sale in the Gift Shop. He will be speaking on his experiences at Heisey and on the making of glass in general. This is one of the events of the Convention which we tend to gloss over, but these people, the former employees, were the people responsible for making this stuff we all slave for.

Every now and again, this column is used to notify you, the members, of needs we have at the

Museum. Several years ago, it was decided to install mirrors behind the glass in the Museum. We got most of the cabinets on the lower level done, but ran out of money for that purpose before any of the cases upstairs were mirrored. Now is your opportunity to give a large quantity of glass to the Museum. This applies to Study Clubs as well as individuals. Please write before you send the mirrors, there is a possibility of duplication.

BENEFIT AUCTION

The Benefit Auction is now history with total sales of \$35,083.50 for 702 lots.

HCA receives 20% of the selling price, less all expenses, and plus the full amount of the donated glass. A few people donated an extra 5%

to the Endowment Fund.

The Auction would not have been possible without the help of all of the people who donated their time. Auctioneers - Sam Schnaidt, Larry Stickle, Tim Hughes and Craig Connelly; Norm and Jan Thran, Dick and Marilyn Smith, Louise Ream and Wanda Lybarger for identifying the glass and making the list; Liz Stickle for typing lot slips and sales slips; Lynette and Curt Parmer and their crew from Lynn's office for their work in Mail Bids; Merrell Strawn for typing the list for <u>Heisey News</u>; cashiers, Heidi Schnaidt and Loren and Virginia Yeakley; Delores Ziegler, Delores Good, Kathy Good and Alicia Miller for their work in processing all of the checks and paper work for consignors; Betty Wanser and Loren Yeakley for clerking; The 76'ers Study Club and all of the many other people for helping set up glass before the auction; and all those, too numerous to name, who helped before, during and after the auction.

We also thank Sam and Heidi for the use of

their Auction Center.

Thanks also to Margaret Weber and those who assisted her in shipping the mail bid glass. With all of the above mentioned help it was again a pleasure to chair the auction.

Thank you, Ray Ziegler

ADDITIONAL PATRONS FOR AUCTION LIST:

Mr. & Mrs. John Willoughby John and Marjorie Deppong James J. Lukasko 76'ers Study Club By Bob O'Grady

Although the Gothic candlestick did not seem to be very popular when it was introduced, it is truly one of the most classic designs ever produced by Heisey. My reaction, when I first saw this candlestick several years ago was that it was somewhat grotesque. However, having the opportunity to live with it and compare it to many of Heisey's other designs as well as other companies, has changed my opinion decidedly. Although I believe it comes off much better as a candelabrum than a candlestick (i.e. without bobeche and prisms).

Heisey did not assign a name, only a pattern number to this candlestick. The name "Gothic" was assigned by a collector and is truly appropriate as descriptive of the elegant arches and points which make up its design. It has occasionally been called "Cathedral" by collectors which is also very appropriate.

The candlestick was first produced in December of 1932 and was last made in September of 1935 giving it almost three years of production. However it was still offered in a 1936 price list and judging from the relative scarcity of these today, not too many were made over the three year period.

For the time of its production, the pattern number assigned to this candlestick was unusual. One would expect that the Gothic would have a pattern number in the 130s or 140s since the other candlesticks introduced in the same time period which did not belong to a pattern group were numbered in this range. The assignment of a 400 number may have had something to do with the fact that all the candlesticks in the 130s and 140s were sold without bobeches and prisms, whereas the Gothic was sold as a candelabrum with removable bobeches and prisms.

The candlestick was made in crystal (and

is more common in this color), sahara and cobalt (colors which are rare). When made up in cobalt the foot and bobeches were left crystal. However when made in sahara, both foot and bobeches were also sahara. An unusual pair of these candelabra have been on display in the HCA museum with a cobalt foot only and the rest in crystal. This was probably experimental or a special order.

This candlestick is one of the tallest made in this period, standing eleven inches tall with an arm spread of nine inches (twelve inches when bobeches are added). It has an applied foot and when offered as a candelabrum could be purchased with "A" or "C" prisms. The removable bobeche which is a separate piece, merely rests over a rim on the candleholder. And as was not uncommon, Heisey used the bobeche (pattern number 402 also) on the two light no. 301 hurricane lamp.

Shortly before it was discontinued, it was offered with a matte etching or an overall satin finish. It is usually marked with the Diamond H at the bottom of the pointed finial topping off the center of the candlestick. It was not reissued by Imperial.

THOUGHTS ON HEISEY'S #4220 VASE

By Edward Noyes, Emeritus Professor of History University of Wisconsin-Oshkosh

When advertisements of the #4220 vase appeared in recent issues of <u>Heisey News</u>, they brought back to the writer memories of more than fifty years ago when he worked in the shop of Arthur Kessmeier who specialized in blowing a variety of bottles, decanters, jugs, salts, and vases.

Blown in a paste mold and ornamented by a swirled optic, the #4220 vase came in two sizes: seven inches and four and one-half inches. Of the two, the smaller was the more difficult to make. Because of the vase's tucked-in "waiste" separating its lower and upper parts, and because of the proportion of bulk in the glass to that waist, painstaking care was required in the marvering process distributing the weight of the hot metal prior to blowing.

Equally exacting was the operation of swirling the optic at precisely the correct angle. After dipping the marvered gathering into the optic mold and then removing it, the blower touched the end of the gathering ever so gently to a heated plate of iron where it hung; next, with what amounted to a "sleight of hand" performance, he turned the blowpipe just enough to have the optic take the proper degree of swirl: for, if the pipe were turned too much, the optic would appear in flattened rings; if not enough, it would appear too perpendicularly on the finished piece. Once this operation was done-and it took only the twinkling of an eye--the gathering was blown in the mold. Usually, the vase carried on its bottom a small circular roughness marking the place where the glass had hung on the heated plate when the optic was swirled.

Although the process described was dependent on immeasurable skill for accuracy, when the working turn was over, each vase was just like its fellows, and all were as nearly perfect as the human hand could fashion them.

Displaying a characteristically high polish from being blown in a paste mold, and with its graceful contours enhancing the swirled optic, the #4220 vase is a joy to the eye. In addition to crystal, it came in colors: those in Alexandrite exhibit an intensely brilliant coloration which is truly delightful. Like fine jewelry, this little vase possesses an excellence all of its own.

Note: While piece is blown, the pressure against the inside of the mold forces the optic from the <u>outside</u> to the <u>inside</u> of the object leaving a smooth external surface.

By Janet M. Caswell

In 1872, a man called Benjamin Abbot left a sum of money to erect a building for the benefit of the inhabitants. Construction was started in 1877 and is a fine example of a romantic Romanesque building made of face brick, unusual Calendonia free-stone carving, stained-glass windows with a large tower which houses a bell and clock. The bell is still used to ring the nine o'clock curfew. The building stands on one of the highest points of land and is sixty feet above sea level. Abbot Hall was the focal point of our town government and it stood silhouetted against the blue sky of day or brilliantly illuminated against the blackness of night saying "Welcome Home" to every townsman, fisherman, or sailor returning from a days sail.

As I told you last month, I was headed for the South Shore but much to my great dismay came home empty handed, but not all here on the North Shore came up thus. My spies tell me the Bay State can brag about all sorts of good things; #15 Duck in Flamingo; a beautiful Rooster Vase; a perfectly lovely #2401 Old Fashioned with the #462 Fox Chase etch. Elsewhere in the Bay State, there was a #1567 Plantation covered lemon, #343 Sunburst Hotel Creamer (those are so pretty), #353 Shaving mug, etched. (that was a real little beauty) Yours truly also found one, but mine was not etched and was sick. I didn't have one and the price was right.... The #469 1/2# Candy jar also appeared in Bean-town along with the #393 3-Pt. Tankard; #1205 Fancy Loop Water bottle; #1483 Stanhope 2-Lite Candlestick and a cute little #21 Desk Candlestick. Others in the same area wanted to brag about a #42 Regal 7" candlestick; #25 Sanford 9-3/4" stick, #600 Chamberstick and the #492 King House etch on a #1472 Parallel Quarter Stick. This was the month for candlesticks. Leaving the candlesticks behind, there was a lovely #1252 Twist 011 & Vinegar in Moongleam and a crystal Cruet marked on the handle; #1183 Salt in Flamingo; #1205 Fancy Loop toothpick in Emerald, #4085 Kohinoor 4-1/2 oz Claret in Zircon & Saturn Optic, #343 Sunburst Tumbler & #1280 Winged Scroll 11-7/8" high Swung Vase in Custard (moongleam with envy)

My "Evergreen Friends" have finally come out of hiding (possibly it was too cold up North to go out, who knows) and they brought with them a #4044 New Era Candelabra/prisms, #1201 Fandango Toothpick, #1503 Crystolite 9" four-part Clover Leaf Relish and a #1235 Chrysanthemum (Beaded Panel & Sunburst) Punch Bowl, Base and eleven cups. This, I understand, was a real

find.

"My First Convention Heisey Friends" found seven (7) Lancaster Etched #4002 Agua Caliente Cocktails.

After driving over 300 miles one day and finding nothing, the Mr. and myself were tired and disappointed. Stopping at just one more place, we met "Grampa W." a real sweet gentlemen who, believe it or not, was just beginning to discover the joys of Heisey. How excited can one person be, he had just found, and purchased,

a #1205 Fancy Loop 9" Ice-Tub in perfect condition and a couple of Victorian wines. We got to talking and he promised to keep me informed of his finds. Even though we didn't come up with anything at that stop, it was not in vain, we

found another Heisey friend!

My "English Buddy" has been running between "Here & there" and there was no end to his list of things to make me envious: #1420 9" Tulip Vase, #1401 Empress 9" Footed Vase in Moongleam, a Sea-Horse Handled Candy Jar in mint condition; a pair of #1401 Empress 6" Toed Candlesticks in Flamingo and another pair just like them only in Sahara, #3368 Albemarle compote D/O, Sahara, Old Colony Etch, #1184 Yeoman Cream and Sugar, etched and a #354 6 oz. Cologne, silver top. Not bad

for a days work.

"The Tipper" told me once that he just gets in the car and goes wherever it takes him. We should all have his luck: #1201 Fandango covered Butter (hmmm); two Baskets the #458 8" with a wheel-cut and a lovely #1183 with wheel-cut (both of which he is going to keep) He says the #1183 is without a doubt the most beautiful he has ever seen. Added to his "little things" was a #351 Priscilla Butter Pat in Flamingo; also found was a #354 Wide Flat Panel Cream & Sugar in crystal and a few pieces of Crystolite #1503, namely the 6" Shell Covered Candy, the five (5) compartment round relish and the 12" 3-compartment relish. He says he is waiting for warm weather and out-door flea markets. I guess we all are anxious for that, if only to get warm. It has been minus 100 for the past few days here in the Yachting Center.

OK "Mountain Gal" here goes: #500 Octagon sugar in Flamingo, #1486 Coleport 8" Bowl, #150 Banded Flute salt & pepper/#3 Sanitary top, #411 Rib & Panel 2-hdld. jelly/floral cut, #1252 Twist 7" Pickle dish in Flamingo, #407 Coarse Rib 6" plates (2) and three 8-1/2" plates all in moongleam, #1295 Beaded Swag toothpick in Opal, Heisey Goose wings half-way, two of them, Ridgeleigh 2" 1-lite candlestick, #1170 Pleat & Panel 10" Spice tray (5-comp) in flamingo/gold floral rim, and lastly the #7052 Diamond Grid Puff Box/sterlinglid.

The Mr. and I run every-which-way and sometimes come up with something, sometimes not. Last week I found a #1404 Old Sandwich 1-2 Gal. Ice Jug in Sahara; #1205 Fancy Loop 4 oz Claret and a 3 oz Wine; #394 Narrow Flute Pickle Jar/ cover; #121 2" Candlestick in Hawthorne and a #433 Greek Key Individual Ice-Tub/Underplate. Cute! Love it.

This month we have two new contributors "two guys from Connecticut" they found six (6) #3481 8-1/2 oz Footed Sodas in Crystal. Lets hear from

you again!

The "Land of Lincoln" has long been absent. I miss you when you don't write to me. The silence has been broken with the #4027 Tall Decanter with Moongleam Foct and Moongleam Steeple stopper in perfect condition and sleeping. The Sitting Pony, #1280 Winged Scroll crystal covered butter/gold decoration, a Lariat 15-piece punch set and a #1503 Crystolite 10" round Vase.

All of you that I haven't heard from for a long time, please drop me a line and tell me about your finds. -6-

HEISEY'S LITTLE THINGS

I have been neglecting those of you who collect little things the past two months but I have only recently been able to write again after having shattered my right wrist in a fall

January 6th.

There were many H.L.T's in the Benefit Auction and they seemed, for the most part, to bring good prices. An 1183 Revere salt dip, like the one which sold last year for \$110, sold for \$140 this year. This continues to be the "top of the heap" as far as salt dips are concerned. This is an unmarked item so someday someone will probably come up with a bunch of them at a real sleeper price. Colored nut dishes brought good prices as did most small items.

Number 357 Prison Stripe is the next pattern in line which has a few H.L.T's. This pattern shape is definitely copied from 300 Peerless with the addition of horizontal ridges all around the body of every piece. Vogel gave the pattern its name. Made first in 1906, it was not a long line and when I first began to collect, very little of it could be found. The first time a toothpick ever sold at auction, it brought well over \$200. However, Heisey Toothpick Holders by Nancy and David Jones, lists it at \$140. I believe if one showed up in an All Heisey Auction today it would probably bring more than that.

The only other pieces which are H.L.T's are the salts and peppers and the custard (Punch Cup). The glass is beautiful clear crystal, well finished and most pieces are marked, delightful additions to your collection. So far, I have none

of these three pieces.

Number 365 Old Queen Ann is another interesting pattern from about the same period as Prison Stripe. The shield shaped ornamentation is quite attractive and Queen Ann is a great favorite among the old patterns, again of excellent quality, and usually marked.

The 4 oz sherbet, custard, toothpick, #2 and #3 salts and peppers and 2 oz wine are the pieces

which fit our collection.

There is also a late Queen Ann pattern which bears no resemblance to #365.

We have tried to inspect the glass closely and will use the following code to better describe the condition. A small letter indicates the damage or flaw is minimal. It would be our opinion that the value would be affected 5 - 20%. A capital letter indicates more significant damage affecting 20 - 40%. Anything damaged more than this is in our opinion, will be marked with an X.

MAIL BID INSTRUCTIONS

Mail bids accepted with checks for maximum amount. Mail bids are handled competitively and any difference refunded. Condition of items for mail bids handled at the discretion of auctioneer. In some cases where damage is found to be minimal, we may execute your bid up to 70% to 80% of maximum. Please add \$8.00 per carton for postage and handling, \$10.00 west of Rocky Mountains. Checks should be made to: SAM SCHNAIDT, AUCTIONEER and mailed to:

APPLE TREE AUCTION CENTER

APPLE TREE AUCTION CENTER 1616 WEST CHURCH STREET NEWARK, OHIO 43055

LIST OF PRICES, REALIZED, AVAILABLE AFTER THE AUCTION FOR \$1.00 or 1984 PRICE LIST SUBSCRIPTION (PRICES ONLY) \$5.00.

ALL HEISEY AUCTION TO BE HELD IN JUNE Sam Schnaidt - 614-344-944: Heisey Museum - 614-345-293:

There will be an auction again this June during the convention. However, this year HCA will be a Co-sponsor and will share in the profits. The auction will be an added attraction for the convention.

The auction will be held on Saturday, June 16th, at the Apple Tree Auction Center and will be limited to $\frac{400 \text{ lots}}{100 \text{ lots}}$. The selling fee will be \$10 per lot regardless of the selling price. A lot can be one item or a combination of items as you choose. No limit on number of lots. If you wish to reserve numbers for a certain number of lots, contact either the HCA or the Auction Center as soon as possible.

Items received by April 28 will be listed in the June newsletter which goes out the end of May. Glass may be brought to the museum or the auction house anytime. (The April 28th auction would be a good time.)

There will be a preview of the glass on Friday, June 15 after the banquet. Selling will start promptly at 9 a.m. on Saturday. Since the Flea Market begins early in the morning, you can visit it before going to the auction. The show will be open until 8 p.m. on Saturday. You will be paid almost as soon as your glass is sold and then you'll have more money to spend at the Show and Flea Market.

Mail bids will be accepted.
